No. 1395 /DCS/PMRU Dated: 06 /10 / 2026

MINUTES OF MEETING DISTRICT SERVICE DELIVERY COMMITTEE (DSDC)

A meeting of the District Service Delivery Committee (DSDC) was held on 6th October 2026 at 02:00 PM under the chairmanship of the Deputy Commissioner, Swabi. The meeting was attended by the heads of all relevant departments.

The Chair welcomed the participants and appreciated the efforts of all departmental heads, acknowledging their collective contribution towards achieving 99% of the assigned targets across all Public Service Areas (PSAs) in District Swabi.

The Committee reviewed the performance of all departments, with particular emphasis on the Health and Education Departments and the indicators marked red by the EMAs during their recent visit. The District Health Officer (DHO), Swabi, briefed the forum on the corrective measures already undertaken to address the low-performing indicators and assured the Committee that the identified indicators would be improved to green status by the next EMA visit.

During the review, the Chair highlighted the remaining 1% gap in achieving the assigned targets and discussed the underlying factors affecting service delivery at the district level. He directed all concerned departments to take timely and effective corrective measures to address the identified gaps, improve performance against the red indicators, and ensure the achievement of the prescribed service delivery standards.

Furthermore, the Chair directed the FP/PMRU to assign inspection targets to all officers of the district administration for conducting regular visits to Public Service Areas falling within their respective jurisdictions. The officers were instructed to identify shortcomings during these visits and take necessary corrective measures to ensure that all PSAs fully comply with the prescribed standards and service delivery requirements.

The meeting concluded with a vote of thanks to the Chair.

Deputy Commissioner
Swabi
